📍 Lisbon, Portugal

Hello!

I am a UX/UI Designer from Lisbon, Portugal. I have recently concluded my Master Degree in Digital and Interaction Design at Politecnico di Milano.
My main goal is to develop my professional interests and deepen my knowledge specifically in the digital world which nowadays is continuously evolving in order to answer to the users' needs.

Personal Skills

As far as I can tell I am a charismatic person with a great sense of humour, always trying to see the good in the bad and get the most I can from every experience that is given to me, either professionally or personally. I always try to identify the best opportunities to grow and to know more about what the world needs and wants. Even if it is a cliché, I truly am a person with a great team spirit and I love those challenges that put us all working together; I think it is from these ones that come the better final results. I like planning things with time and on time. I have a personal established organized strategic to pursue, do and present the work done.
